

Peatlands and wetlands in Romania

Map - Peatlands and wetlands in Romania (in kmz format)

NOTE:

In case of need to replace peatlands / wetlands, under the conditions mentioned in Chapter. 7.2 to the Applicant's Guide, potential applicants will select peatlands/ wetlands from the Map - Peatlands and wetlands from Romania (which is an integral part of this annex), as follows:

1. To replace the peatlands/wetlands in the Center Region, the peatlands/wetlands in **Harghita and Covasna counties** will be selected.
2. For the replacement of peatlands / wetlands in the North-West Region, peatlands/ wetlands in the counties **Cluj, Bihor and Sălaj** will be selected.
3. To replace the peatlands/wetlands in the North-East Region 1, the peatlands/ wetlands in the counties **Alba, Braşov, Mureş, Hunedoara, Mehedinţi, Sibiu** will be selected.
4. 4. For the replacement of peatlands / wetlands in the North-East Region 2, peatlands / wetlands in the following counties will be selected: **Bistriţa-Năsăud, Dâmboviţa, Maramureş, Neamţ, Prahova, Suceava (other than those already provided in Annex no. for the North-East 1 and North-East 2 regions), Vrancea.**
